

2021 Build with Pride

Habitat for Humanity was founded on the premise of radical inclusivity, and that value was key to the establishment of the Greater San Francisco affiliate (HGSF) more than 30 years ago. Since our founding, HGSF has built over 240 affordable homes and completed over 200 Home Preservation projects locally, in doing so we have built and sustained homeownership for hundreds of Bay Area families.

We are proud of our inclusive origins and honor this by engaging the community in our annual Build with Pride, where you can help us continue to push our critical mission forward. We hope you will join us.

Highlights

- In-person volunteer engagement opportunities
- Featured stories of diverse leadership in housing and design in the Bay Area on social media during the month of September
- Opportunity for employees to learn about the state of affordable housing and new construction skills
- Opportunity to leverage Habitat's powerful brand and content to engage stakeholders
- Showcasing company's commitment to affordable housing and community wellbeing in the region
